Dumpster/Portable Storage Container Permit

The undersigned hereby applies for the placement of a dumpster and/or portable storage container in the Village right-of-way. The placement and use of dumpsters are governed by Village Ordinance 15.12 and portable storage containers are governed by Village Ordinance 15.13. An outline of these requirements is provided on the reverse side of the permit. Lighted barricades are also required when the dumpster or portable storage container is placed in the street or alley. Failure to remove the dumpster and/or portable storage container by the expiration date of the permit will require additional payment or penalties in accordance with Village Code.

Requirements for Large Waste Receptacles (Dumpsters) and Portable Storage Containers

Definition

Village Ordinance 15.12 Large Waste Receptacle – A container larger than ninety-six (96) gallons in volume placed outdoors and designed to receive, transport, or dump waste including but not limited to household, construction, demolition debris and landscaping waste.

Village Ordinance 15.13 Portable Storage Container – Any container, storage unit, shed-like container or other portable structure, other than an accessory building in full compliance with Village Ordinances or shed complying with all building codes and land use requirements, in excess of ninety-six (96) gallons in volume, that may be or is used for the storage of personal property of any kind and which is located for such purposes outside an enclosed building.

Requirements Applicable to Both

- Barricades – Two lit barricades on either end when placed in the street.
- Location and Maintenance – The entity providing the structure and the owner are responsible for the safe and legal placement as well as the maintenance of the structure.
- General Prohibitions on Placement – The location selected shall not:
 - Block any building's means of ingress or egress.
 - Block any fire lanes, handicap spaces, hydrants, or pedestrian walkways.
 - Be within 50' of any intersection.
 - Block any bus stop.
 - Obstruct a driver's view of traffic signs or signals.
- The Building Inspector, Public Works Director, Police Chief, Fire Chief, or their designees may deny a permit if it is determined that the intended placement restricts traffic or affects public safety response.
- All structures shall exhibit a clear and legible demarcation of the owner with their contact information including address and phone number.
- Structures located on private property do not require a permit but are still subject to the same requirements on placement and use as permitted structures.

Requirements Specifically for Large Waste Receptacles (Dumpsters)

- Receptacles may not be placed on or nearby to service any single property for greater than ninety (90) days in any twelve (12) month period.
- All project sites shall be free of all loose debris and other materials commonly found on construction related sites.
- All receptacles shall be delivered or emptied in a timely fashion so as to prevent the overflow of debris or litter, and only between the hours of seven (7) am and eight (8) pm.

Requirements Specifically for Portable Storage Containers

- Containers may not be placed on or nearby to service any single property for greater than twenty one (21) days in any twelve (12) month period.
- The Portable Storage Containers may not exceed ten (10) feet wide, twenty (20) feet long, and ten (10) feet high.
- Containers may only be delivered or removed between the hours of seven (7) am and eight (8) pm.
